CERTIFICATION

SAFe 6 Product Owner / Product Manager
Scaled Agile · Apr 2024 – Apr 2027

Profile

Engineering and IT leader with experience as Engineering Manager, program and transformation leader, CIO, CTO and IT Director. Interim and advisory assignments through Papa Bravo AB, founded in 2020. Career spans banking and financial services (Euroclear, Avanza, Trustly, Klarna), listed companies and product scale-ups, and multi-country delivery with vendors and internal stakeholders.

Experience

Dec 2025 – Dec 2026
Engineering Manager
Avanza Bank · consultant

- Responsible for two development teams, with classic Engineering Manager responsibilities.
- Teams in a Java grouping, working on the system that underpinned the other teams' systems.

Aug 2024 – Dec 2025
Program Manager
Euroclear Sweden · consultant

- Led the program for evaluation, pre-studies and planning ahead of replacing the technical engine behind securities settlement and the Swedish banks' hub.
- Drove major pre-studies to establish plan, budget and organisation for implementation; program estimated to run nearly ten years.
- Daily international contact with other Euroclear entities and external vendors.
- Project plans and roadmaps for a seven- to ten-year program, aligning vendor and internal stakeholders across several countries.

Feb 2020 – present
Founder
Papa Bravo AB

- Consulting and advisory assignments in engineering, programs and technology leadership.
- Two apps in production: web, iOS and Android, with payments and analytics.

Jan 2023 – Jun 2024
Product and Project Manager
Getinge · consultant

- Point-of-care devices; pre-studies and implementations of new digital services.
- Adapted service and support processes, developed the organisation, introduced tools, training and roadshow material.
- Worked in SAFe.

2022
CTO
Northfork

- Startup on the path to scale-up, with customers worldwide; also Scrum Master and Product Owner.
- Prepared the IT department; explored and tested new techniques and products.
- Introduced basic processes from business and IT perspectives; involved through production (widgets and APIs).
- Developers in China, Sri Lanka, Ukraine and Sweden; operations in Sweden, the UK, France and the USA.

Aug 2021 – Feb 2022
