PROFILE

I take interim assignments as Engineering Manager, program and project manager, and technology leader through Papa Bravo AB, which I founded in 2020. I am Engineering Manager for two development teams at Avanza Bank, and I have held the same kind of role as CIO, CTO and IT Director. The work has been in banking, fintech, medtech and retail technology, with the teams that deliver.

STRENGTHS

Engineering teams, programs and projects, management-team work, and IT organisations across countries and suppliers.

EXPERIENCE

Engineering Manager (consultant), Avanza Bank Dec 2025 – present

- Engineering Manager for two development teams.

Program Manager (consultant), Euroclear Sweden Aug 2024 – Dec 2025
